- **Build walls up to 1.8 m** easily, or reach impressive heights up to 6.4 m with reinforcement
- **Ideal for landscaping projects, garden walls, and other decorative features**
- Strong and durable with the **decorative look of real stone**
- Available in **3 different colours**

Dimensions:

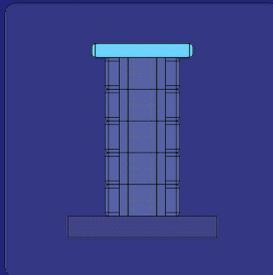

Novum Wall Types:

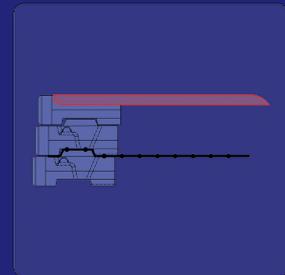

Gravity Walls

With Novum Wall's patented knob and groove technology, you'll build stout gravity walls up to 1.8 m tall in even the smallest installation footprints.

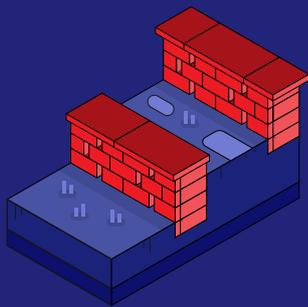

Freestanding Walls

Add freestanding walls to the top of gravity or MSE projects to create parapet walls or use freestanding walls as standalone structures.

MSE (Reinforced) Walls

You can reach heights of 6.4 m or more with a Novum Mechanically Stabilized Earth wall using a friction connection, or its integrated Positive Connection (PC) capability.

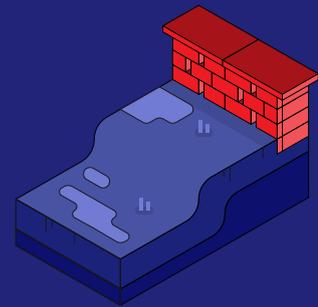

Retain Slopes

Manage grades to maximize yard space and common areas

Control Water

Protect and preserve lakeshores and manage stormwater

Create Terracing

Add gathering spots and gardens to lawns and parks
